Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 June 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of figure 3, claims 1, 2, 5, 19, and 21 in the reply filed on June 30, 2006 is acknowledged. The traversal is on the ground(s) that all identified species result in the shear rate or shear stress of a non-Newtonian fluid and therefore all should be examined together, the examiner disagrees. This is not found persuasive because the reason for insisting upon election of one species, are the facts relied upon for the conclusion that there are claims restricted respectively to two or more patentably different species that are disclosed in the application. The breadth of a single disclosed species does not necessitate the examination of the other disclosed species and their concomitant features. The examination of other species would include a determination of the patentability of the species additional features in combination with the subcombination common to all species, which determination amounts to an examination of multiple inventions. Moreover, some of the species provide for a shear-thickening fluid or shear-thinning fluid that creates a different effect in the fluid, and therefore the election of species is proper.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 3, 4, 6-18, and 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on June 30, 2006.

Art Unit: 3763

3. Please note that claim 9 has been withdrawn by the examiner because it depends from a non-elected claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2, 5, 19, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Nilsson et al (US 6,132,405).

Nilsson discloses a device (figs. 3, 6, and 7) and method for delivery of non-Newtonian fluid for therapeutic purposes.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892 Form.
